

A muscular man is shown in a starting crouch, ready for a sprint. The image is overlaid with a semi-transparent red filter. The brand name 'HYPEROX' is prominently displayed in the center, with 'HYPER' in white and 'OX' in red, both in a bold, sans-serif font. A registered trademark symbol (®) is located to the upper right of the 'OX' part of the logo.

HYPEROX[®]

**Improve
Ejection
Fraction**

Hyperox is a Fenugreek seed extract standardized for Select glycosides. It can improve blood circulation and nutrient delivery by improving cardiac output.

Mechanism Of Action:

Hyperox contains specific type of glycosides which may improve diastolic function of heart. Improvement in diastolic function leads to increase in cardiac output. Higher cardiac output means supply of high amount of oxygen and nutrient all over the body.

Consuming Hyperox may improve Ejection fraction rate by optimizing heart functions and there by improve better blood flow.
